

Access Ramps

Giving you access to all areas...

Mobile Yard Ramps

For fast, efficient loading and unloading of trucks / trailers by forklift truck, particularly when no loading bay is available. Yardramps are renowned for their quality and strength, and for the availability of specialist engineers, who aim to reach you within 48 hours in the case of a breakdown.

All models include a steel superstructure, hand operated hydraulic pump to raise ramp to required height, built in towing mechanism for moving by fork truck. Solid tyres. 1.8m of safety chain on each side for securing ramp to truck or dock and serrated open grid deck for positive traction in all weather conditions.

Walk Ramps

Suitable for sack trucks and hand balling.

Various options & adjustments to ensure the ramp works for your specific application, ie height variations, width, capacity, anti-slip coating for outdoor use, handrails.

Door Frame Entry

Designed for use inside buildings, where wheelchair

users have difficulty accessing or exiting buildings when a doorframe surround exists, particularly an issue with modern PVC patio doorframes.

Manufactured from lightweight aluminium with a handle for ease of movement.

Door Threshold Ramp

A situation may exist where only a door threshold frame needs to be bridged in order to gain access, this can be achieved with this unit.

The Threshold Ramp is a lightweight unit manufactured using aluminium construction suitable for wheelchairs and trucks. Includes a lifting handle, anti-slip finish, safety side curbs and securing legs to lock onto the threshold.

Fixed Aluminium Ramps

Strong and sturdy ramps, suitable for wheelchairs and trucks, for applications where a fixed height variation exists and the ramp doesn't need to be variable in height.

- Manufactured from aluminium with anti-slip grit coating.
- Includes fixing lugs for securing to ground.
