

Lockers & Cabinets

A place for everything and everything in it's place

- Anti-bacterial power coating
- Robust steel construction
- Sloping Top Option
- Welded frame design
- Metric sized lockers

Lockers and Cabinets are welded and riveted in construction. Semi-concealed hinges are welded to the door and riveted to the frame, allowing easy replacement of doors. Doors positioned within a rebated frame to enhance compartment security. Selected doors are reinforced with profiled steel sections.

The carcass incorporates nesting holes on all sides and a return flange at the base for extra strength and to reduce floor damage. Lockers are manufactured using cold rolled steel. Material thickness specification 0.9mm for doors and frame. 0.7mm for carcass and shelves. Components are polyester powder coated prior to assembly to ensure all surfaces are protected. Nested lockers are manufactured with common sides.

Door colour options : Green, Dark Blue, Pastel Blue, Red, Yellow, Maroon, Grey

All lockers supplied with a Grey carcass.
