

Partitioning

Why move when you can improve

Clark Handling is a leading supplier and installer of quality and modular partitioning systems. Make better use of your existing premises, instead of the need to relocate.

The benefits are similar to our mezzanine floors. Rooms are erected fast and cost effectively with minimal disruption to your business. Partitioning is modular and available in steel, plasterboard, timber or glass. Each can be easily demounted and reconfigured.

We have been installing partition systems throughout the UK for over 16 years using experienced and qualified teams. All teams are qualified to SIERS (Storage Equipment Installation Registration Scheme) and are also members of the Safe Contractor scheme, complying with all aspects of today's Health & Safety requirements, when installing this type of equipment.

Complete Turnkey solutions

We can project manage the entire process for you, from a small industrial room to a large modern office, reception, canteen or call centre. Our services also include the following list of services to enable Clark Handling to complete the project to suit your entire needs:

- Ceilings, including suspended ceilings
- Dry lining and feature wall coverings
- Smoke detection systems
- Power and data cabling
- Lighting, Heating, air conditioning and ventilation systems
- Decoration including painting & wall covering vinyl.
- Floor coverings, including carpet tiles, wood effect vinyl and wood.

Should you require further information relating to our Partitioning Systems, or a site visit to discuss your requirements please call us on 08456029663
