

# Shelving

Free standing or off the wall – we've got it all

## Stormor Shelving

This is the versatile range of shelving with slim profile shelves and frames which give runs of shelving a neat co-ordinated appearance. This design feature coupled with its range of sizes, upright colour options and comprehensive range of accessories makes Stormor ideal for use in any environment.

### Applications include :

- General office storage
- Dedicated office filing solutions
- Large Archiving Projects
- Healthcare records
- Retail storage
- Workshop and stockrooms
- Industrial Storage

## Euro Shelving

Euro shelving is the single, simple to use versatile solution with standard shelves taking loads of up to 200kg (440lbs) and when even that's not enough, there's the option to specify heavy or extra heavy duty for the more demanding storage environment. Euro shelving features unique shelf support clips that simply slot into place giving firm support for even the heaviest loading requirements, yet allowing for quick and easy repositioning whenever required.

## Mobile Shelving

If you are short of space, just use high-density mobile shelving. You can add up to a further 50% storage capacity within your current Floorspace. Mobile shelving is so effective in saving space, by eliminating the need for several access aisles. Because the shelving moves along floor tracks, the space for only one aisle is needed. When an item is required the particular shelving bay is identified and an adjacent aisle is created by moving the mobile shelving units apart.

Mobile shelving is available with either hand operated mechanical operation, electric or automatic electronic controls.

## Longspan Shelving

Longspan is the leading heavy-duty clip together wide bay steel shelving system for the hand-loaded storage of heavy and large items. With a wide choice of frames, beam types, sizes and a choice of shelf materials. Longspan will take the strain from the heaviest of loads.

Simply clip together assembly makes it easy to adjust. Beams fasten simply and securely onto uprights. Shelving materials can be supplied to meet specific requirements – choose from galvanised steel panels, chipboard or timber shelves.
